SPECIAL MEETING OF TSLX STOCKHOLDERS

To Our Stockholders:

We will be holding a Special Meeting of Stockholders of Sixth Street Specialty Lending, Inc. on May 25, 2023, at 10:00 AM, Eastern Time, at the offices of Cleary Gottlieb Steen & Hamilton LLP located at One Liberty Plaza New York, NY 10006. The proxy statement for the Special Meeting was filed and notice sent to stockholders on or about April 13, 2023.

At the meeting, you will be asked to consider and vote upon a proposal to authorize the Company, with approval of its board of directors, to sell or otherwise issue shares of its common stock at a price below its then-current net asset value ("NAV") per share in one or more offerings, subject to certain conditions as set forth in the proxy statement for the Special Meeting, including that the number of shares issued does not exceed 25% of its then-outstanding common stock immediately prior to each such offering.

To date, the Company has not issued shares below NAV under prior authorization granted from stockholders. The board believes that having the **flexibility** for the Company to sell common stock below NAV in certain instances is in the Company's best interest and the best interests of its stockholders.

We urge stockholders to vote "FOR" this proposal:

- Provide access to capital markets to pursue attractive investment opportunities during periods of volatility
- Improve capital resources to enable the Company to compete effectively for high quality investment opportunities
- Add financial flexibility

MARKET CONDITIONS MAY CREATE ATTRACTIVE INVESTMENT OPPORTUNITIES

CREDIT MARKET DISLOCATION (LATE 2015 – EARLY 2016)

CREDIT MARKET DISLOCATION (EARLY - MID 2020)

- From time to time, there may be volatility in the broader capital markets, disruption in liquidity in the debt capital markets, significant write-offs in the financial services sector, and / or repricing of credit risk in the broadly syndicated markets
- During these periods, there could be a reduction in capital available to certain specialty finance companies and / or other capital providers, causing a reduction in competition for investment opportunities. For example:
 - In late 2015 through early 2016, these conditions coincided with lower stock prices for BDCs, with the BDC sector generally trading below NAV
 - Market conditions in early through mid 2020 driven by the impacts of COVID-19 also coincided with lower stock prices for BDCs, with the BDC sector trading significantly below NAV
- We believe that favorable investment opportunities at attractive risk-adjusted returns may be created during these periods of disruption and volatility
