DISCLAIMER AND FORWARD-LOOKING STATEMENT

References in this presentation (“Presentation”) to “TSLX,” “we,” “us,” “our” and “the Company” refer to Sixth Street Specialty Lending, Inc.

This Presentation includes forward-looking statements about TSLX that involve substantial risks and uncertainties. These forward-looking statements are not historical facts, but rather are based on current expectations, estimates and projections about us, our current and prospective portfolio investments, our industry, our beliefs, and our assumptions. Words such as “anticipates,” “expects,” “intends,” “plans,” “believes,” “seeks,” “estimates,” “would,” “should,” “targets,” “projects,” and variations of these words and similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future performance and are subject to risks, uncertainties, and other factors, some of which are beyond our control and difficult to predict, that could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements. Such factors include, but are not limited to the risks, uncertainties and other factors we identify in the section entitled “Risk Factors” in filings we make with the Securities and Exchange Commission. Opinions expressed are current opinions as of the date of this Presentation.

We have based the forward-looking statements included in this Presentation on information available to us on the date of this Presentation, and we assume no obligation to update any such forward-looking statements. Should TSLX’s estimates, projections and assumptions or these other uncertainties and factors materialize in ways that TSLX did not expect, actual results could differ materially from the forward-looking statements in this Presentation.

Information throughout the Presentation provided by sources other than TSLX (including information relating to portfolio companies) has not been independently verified and, accordingly, TSLX makes no representation or warranty in respect of this information.

The following slides contain summaries of certain financial and statistical information about TSLX. The information contained in this Presentation is summary information that is intended to be considered in the context of our Securities and Exchange Commission filings and other public announcements that we may make, by press release or otherwise, from time to time. We undertake no duty or obligation to publicly update or revise the information contained in this Presentation. In addition, information related to past performance, while helpful as an evaluative tool, is not necessarily indicative of future results, the achievement of which cannot be assured. You should not view the past performance of TSLX, or information about the market, as indicative of TSLX’s future results. This Presentation does not constitute a prospectus and should under no circumstances be understood as an offer to sell or the solicitation of an offer to buy any securities of TSLX.

ENDNOTES

Note: Figures are as of 6/30/22 quarter end unless otherwise noted

- (1) Represents our core portfolio, which excludes certain investments that fall outside of our typical borrower profile. EBITDA is defined as earnings before interest, tax, depreciation and amortization. This calculation may vary depending on the portfolio company
- (2) Quarterly Return on Equity is calculated using the prior period's ending net asset value per share. Note that Return on Equity on adjusted net investment income and adjusted net income exclude the impact of the capital gains incentive fee expense that has been accrued, but not paid or payable, related to cumulative unrealized capital gains in excess of cumulative net realized capital gains less any cumulative unrealized losses and capital gains incentive fees paid inception to date
- (3) Net of Deferred Financing Costs and Interest Rate Fair Value Hedging. Deferred Financing Costs total \$22.3M at 6/30/21, \$20.8M at 9/30/21, \$19.1M at 12/31/21, \$17.8M at 3/31/22 and \$20.6M at 6/30/22. Fair value hedge on interest rate swaps related to the 2024 and 2026 notes total \$4.5M at 6/30/21, \$2.5M at 9/30/21, (\$5.9M) at 12/31/21, (\$33.0M) at 3/31/22 and (\$41.1M) at 6/30/22
- (4) Pro forma for unsettled trade receivables / (payables), if applicable
- (5) Daily average debt outstanding during the quarter/year divided by daily average net assets during the quarter. Daily average net assets is calculated by starting with the prior quarter/year end net asset value and adjusting for capital activity during the quarter/year (adding common stock offerings / DRIP contributions)
- (6) Total yield on investments is calculated based on the interest rate and the accretion of OID, exclusive of investments on non-accrual status
- (7) Interest from investments – interest and dividend income includes accrued interest and dividend income, amortization of purchase discounts (premiums) and certain fees, and accelerated amortization of upfront fees from scheduled principal payments
- (8) Interest from investments – other fees includes prepayment fees and accelerated amortization of upfront fees from unscheduled paydowns
- (9) Other income includes amendment fees, syndication fees, interest on cash and cash equivalents and miscellaneous fees
- (10) New investments are net of sell-downs
- (11) Fundings exclude intra-quarter revolver borrowings that are repaid by quarter-end
- (12) Par value; excludes amortization, excess cash flow sweeps, PIK, FX movements, and intra-quarter revolver borrowings that are repaid by quarter-end
- (13) Interest rate on debt outstanding includes the swap-adjusted interest expense related to our Convertible Notes and Unsecured Notes
- (14) In connection with the note offerings, the Company entered into interest rate swaps to align the interest rates of its liabilities with its investment portfolio, which consists of predominately floating rate loans. In connection with certain notes repurchases, the Company entered into additional interest rate swaps to reduce the notional exposure of its existing interest rate swaps related to the notes to match the current principal amount of notes outstanding. As a result of the swaps, the effective interest rate (excluding OID) on the 2023 notes is LIBOR plus 1.99%; the effective interest rate (excluding OID) on the 2022 convertible notes is LIBOR plus 2.11%; the effective interest rate (excluding OID) on the 2024 notes is LIBOR plus 2.28%; and the effective interest rate (excluding OID) on the 2026 notes is LIBOR plus 1.91%
- (15) Weighted by amortized cost of debt investments. Investments are financed by debt and equity capital. This analysis assumes longer-dated investments are currently funded by equity capital (53% of investments) and the remaining (shorter-dated) investments (47% of investments) are currently funded by debt financing. Investments for purposes of this analysis exclude unfunded commitments, and equity capital is defined as 6/30/22 net assets pro forma for the approximately \$78 million equity issuance for settlement of the 2022 Convertible Notes
- (16) Unsecured Notes treated as floating rate due to interest rate swaps TSLX entered into to swap fixed notes payments for floating rate payments
- (17) Weighted by gross commitment amount
- (18) Interest rate on the facility is a formula-based calculation. If the Borrowing Base is equal to or greater than 1.60 times the Combined Debt Amount (i.e. 1.60x total commitments), the applicable margin is SOFR+1.75%. Interest rate includes a 10 bps CSA when using 1 month, 3 month, or 6 month SOFR
